To whom it may concern:

Please let it be known that Staff Professionals has been intricately and continuously involved with our business since 1997. Staff has helped us grow from one bingo hall to four over the years and have assisted in many areas of interest. They always respond to any situation we may share with them in a positive manner and have never refused to offer help or found that any request was too "big" for them to tackle. I can honestly say they have been one of the reasons we were able to expand. I therefore wholehearted can give them a 10 out of 10 positive recommendation pertaining to any endeavor they may be associated with. If you need more information or have any questions pertaining to this letter of reference, please do not hesitate to contact me at the above email address.

Respectfully,

Kevin Keller
